★ BRIGHT'S DISEASE. ★

A Ten-Year-Old Child Saved After the Failure of Four Physicians.

My little girl, ten years of age, was taken sick in March, 1888, with scarlet fever. When recovering she took a severe cold, which developed Bright's Disease of the Kidneys. Her ankles, feet and eyes were terribly swollen, she had a burning fever, and all the symptoms of an aggravated case of Bright's Disease. Four of our best physicians attended her, but without success, and

Her Life was Despaired of.

But a mother's love and prayers surmount all difficulties. I determined to try Dr. David Kennedy's Favorite Remedy, made at Rondout, N. Y. This was a last resort, and I hoped, although my little daughter's case was a very severe one, that the Favorite Remedy would do for her what it had done for others who could have been considered hopeless. How happy I am that I determined on this course—for an improvement was at once perceptible. The fever left her—her appetite improved—she gained six pounds in a short time, and one by one the well known dreaded symptoms of the disease left her. Words fail to express my gratitude; and

EVANGELICAL ALLIANCE.

MEETINGS HELD IN RONDOUT AND IN KINGSTON LAST NIGHT.

Next Public Gathering Announced—The Class of Uter-In Reference to Church Social Work—In the Postal Here and Elsewhere.

A meeting of the Supervisors of the Rondout Department of the Evangelical Alliance was held in the chapel of the Presbyterian Church last evening. President A. K. Fuller presided and E. G. Adams acted as Secretary. Prayer was offered by the Rev. Thomas Lamont. Various Supervisors reported the need of visitors, etc., in their districts. A general view of methods and explanation of plans was given by President Fuller and also by several of the Supervisors. The next public meeting it was announced, will be held in April. Another meeting for the purpose of receiving more thorough instruction in the work will be held in the Wurts-Street M. E. Church, on Monday evening, March 11.

KINGSTON DEPARTMENT.

There was a meeting of Supervisors of the Evangelical Alliance, in St. James M. E. Church, Kingston, last night. The Rev. Dr. G. G. VanSlyke presided. William Smith acted as Secretary. After the object of the meeting had been stated, the Chairman suggested that a courteous resolution be drawn, recommending that a division line be made between the upper and lower ends of the city, somewhere in the vicinity of the City Hall. The Rev. O. Hayward said that while the meeting had no authority to decide the question, he would move a resolution that "this meeting recommend that Districts No. 1 to 17, inclusive, be under the supervision of the Rondout wing of the Alliance." It was adopted.

Pastors present asked how many of their visitors were working. The Secretary read the reports. After consultation some of the work was re-discussed in order to give greater efficiency. Districts which had been incompletely canvassed were re-arranged and assigned to new Supervisors and additional visitors provided.

A letter from the Rev. A. K. Fuller was read, suggesting that there be no monthly meeting in March, as the time was too short to make proper arrangements and have general visitation, and that arrangements be made for an April meeting. Mr. Fuller wrote: "Try to make it as interesting and profitable as possible." The letter was received and a committee consisting of the Chair and E. J. Chubb was appointed to make arrangements for the meeting on a Monday evening, a church to be engaged in Kingston, and addresses to be made by two persons.

NOTES ON NEWS OF THE DAY.

The canal across the Isthmus of Corinth, Greece, four miles long, has just been completed. It was begun during the reign of the Emperor Nero of Rome, seventeen hundred years ago. Let New Yorkers not despair. The Capitol will yet be built.

This paper that the Arkells have purchased is *Frank Leslie's Illustrated Newspaper*. It is not, as we understand, to be a humorous and satirical journal like *Judge*, but a pictorial issue on the plan of *Harper's Weekly*, with Republican leanings. The Arkells are "hustlers" in the newspaper field.

The census bill, which has passed both houses and is in the hands of the President, so reduces the work as compared with that of 1880, that five volumes instead of twenty-five will hold the result. The condensation will undoubtedly prove a reform, for the printing of the census of 1880 is not yet completed.

It is voting to admit three new states that are almost certain to substantially increase the political strength of the Republicans in Congress. The census showed themselves capable of rising above party. *Philadelphia Record, Dem.*

The task was easy enough, for the party is down under foot. The Democrat who wishes to do anything for the country that is honorable and praiseworthy during the next four years will find it necessary to rise above his own party and act with the Republicans.

Pigott has confessed his forgeries and fled, aided in his escape, it is believed, by officials of the British Government. Parnell remains, to enjoy the shame and confusion to which he has brought his enemies. His triumph is a good thing for home rule, and he can now take up his cause and push it forward, assured of the sympathy of all liberty-loving Englishmen and the whole civilized world besides.

WHATEVER may be Mr. Cleveland's feelings, his wife will undoubtedly be glad to get back into private life. It is said that she has shaken 6,000 hands at a single reception, and that after every reception she suffers pains in both arms. Housework or even churching is nothing to him. Mr. Cleveland has had much to say regarding the federal constitution, but the nation will be glad that he will soon be in position to pay more consideration to the constitution of his wife.

The Chicago Commercial and Traveling Men's club presented Gen. Harrison with a magnificent vase yesterday. An examination brought to light a beautiful flask with a screw top. While the General was examining it, evidently with a wish to learn its value, his daughter, Mrs. McKee, seized it, exclaiming: "That will be just the thing to hold baby's milk." She was allowed to carry it away, and the third generation of Harrisons will bless the donors for their thoughtfulness.

HERMAN KEMPINSKI, a naturalized citizen of Bridgeport, Conn., has been sentenced to banishment in Siberia. Mr. Kempinski was a good citizen in America, but when he went back to his old home in Russia he spoke of the harshness of the government with the freedom of an American citizen. This was treason in Russia, hence he was sent to Siberia. The naturalized American who visits his native land needs to be informed that it is dangerous to "talk politics" in almost any country of Europe.

ELEVEN girls were burned to death in the explosion of a squib factory at Plymouth, Pa., yesterday. Their bodies were all mutilated beyond recognition except by some peculiarly of dress, heads and limbs being blown off. Horrifying accumulations in Pennsylvania, Plymouth is in the vicinity of Mud Run, where an entire train of excursionists was crushed to death a few weeks ago, and of Wilkesbarre, where a paymaster and his attendant were shot to death still more recently by a band of Italians, one of whom was sentenced to death yesterday. It is also near Reading, where forty or fifty women were crushed by the blowing down of a factory not long since.

THE country does not yet know exactly what has happened between Senator Blackburn and Senator Chandler in one of the committee rooms last week. The original story was that the angry and stalwart Blackburn took the New Hampshire gentleman by the ear and yanked him out of the chair. Mr. Chandler is a light weight physically, and there is little doubt that Blackburn could lift him bodily with one hand if the ear held to gether. Whether the story is correct or exaggerated, we are glad to learn that Chandler will take no retaliatory action. The tactics of the bully can be allowed to remain a monopoly in the hands of statesmen who were trained to "plantation manners." Blackburn's term is drawing to a close, and he has discovered danger in the fact that his constituents wrote him down a coward after his affair with Gen. Rucker. Hence his efforts to pose as a hero by attacking a man physically weaker than himself, and who holds the "code" in abhorrence.

SOUTHERN Democrats in the House are interposing the California contested election case to prevent action on the Cowles bill. It is not impossible that they will prevent the passage of the bill, but force an extra session of Congress upon the country. This would lead to the enactment of a tariff bill more in consonance with the views and plans. The Bourbons refuse to accept of no other way of relief, though there is but one other way, and that is the people declared by their votes. The tobacco tax would not interfere with tariff legislation, but it would take \$30,000,000 from the revenues and leave that amount with the people. The men who oppose the Cowles bill cannot give a word of excuse for their action except that its defeat will leave a larger surplus in the Treasury for the benefit of plundering politicians. In the meantime the tariff remains unchanged, foreign goods are being unloaded in steadily increasing quantities at our ports, and business and wages suffer. The Bourbons will use their power till the last moment to stifle beneficial legislation. Their latest breath will be expended in acts of revenge upon the people who voted them out of power. To watch the course of the majority in the House during these closing days will be a valuable educational process, and a fitting supplement to the recent Democratic "campaign of intolerance." Let the people watch.

OVATIONS TO THE PRESIDENT-ELECT. Some of the Events Along the Route to the Nation's Capital.

Pittsburg, Feb. 26.—The new day had just begun when the train bearing President-elect Harrison and party left Dennison, Ohio. It was drawn by engine No. 58, manned by Bernard Bannon.

VISITORS DISAPPOINTED. Dennison is a railroad town purely, and the hundred or more midnight visitors at the station were almost entirely railroad men who were greatly disappointed at not being able to see the distinguished citizen in the car in front of them.

A "HOT BOX." However, they quietly bore the failure of their visit, and watched the train run down to the yard limits, where an exasperating hot box delayed the attention and efforts of the Inspector. When it had been returned to tractable condition the train began its progress over the latter part of the second division of its trip.

TRAIN ORDERS. Orders were given by Superintendent Turner not to make any stops at points where it was probable crowds would congregate. In consequence the train ran through Steubenville, Mingo Junction and other towns, only at a slightly reduced rate of speed, and the attentions paid to its progress were few and feeble.

FIREWORKS AND LANTERNS. At Scioto the upward flight of a solitary rocket was observed from the train, and it was fired at a point some distance away from the track. At Steubenville the platform was filled with railroad men, who waved their lanterns at the fleeting train without evoking response from any but the smoking apartment of the combination car, where the working force of the train was, in company with Superintendent Turner.

GLIMMERING FURNACE LIGHTS. The furnace lights of the big iron works at Mingo Junction threw their gleams upon a party that was in no condition to appreciate them, the property of which they were the bearing symbol.

WHAT CAUSED DELAY. A heavy train in advance of the President-elect kept losing time and causing the latter to be frequently held up at black signals. At Steubenville the train was delayed by a heavy train in advance of the President-elect. A heavy train in advance of the President-elect kept losing time and causing the latter to be frequently held up at black signals.

THE train was moving slowly when a bright faced boy wearing a knit cap with a tassel and carrying a small photograph outfit ran beside the train and called out to the General that the train would stop shortly and he wanted to take his picture. The General nodded his head and watched the zealous lad with interest as he kept pace with the moving train. Opening the door the General called to the boy and told him to get up on the train and take his picture. The boy, and coming closer he secured a second picture.

THE GOVERNOR BEAVER'S SON. The General inquired of the boy what his name was, and he said it was Hugh Beaver, and one of the crowd of boys called out that he was a son of Governor Beaver, whereupon Russell Harrison opened the gate and assisted the little fellow up the steps and the General shook his hand and told him to give his regards to his father, the Governor. As the train moved off Mrs. McKee requested the young artist to send her one of the photographs and he promised to do so.

High-Pressure

Living characterizes these modern days. The South is a fearful increase of Brain and Heart Disease—General Debility, Insomnia, Paralysis and Insanity. The medicine best adapted to permanent good is Ayer's Sarsaparilla. It purifies, enriches and vitalizes the blood and thus strengthens every function and faculty of the body.

A Cure

For Nervous Debility caused by an inactive liver and a low state of the blood.—Hear Bacon, Xenia, Ohio.

"For some time I have been troubled with heart disease. I never found anything to help me until I began using Ayer's Sarsaparilla. I have only used this medicine six months, but it has relieved me from my trouble and enabled me to resume work."—J. P. Carzant, Perry, Ill.

"I have been a practicing physician for over half a century, and during that time I have never found so powerful and reliable an alterative and blood purifier as Ayer's Sarsaparilla."—Dr. M. Maxstar, Louisville, Ky.

★ BRIGHT'S DISEASE ★

A Ten-Year-Old Child Saved After the Failure of Four Physicians.

My little girl, ten years of age, was taken sick in March, 1888, with scarlet fever. When recovering she was seized with Bright's Disease of the Kidneys. Her ankles, feet and eyes were terribly swollen. She had a burning fever, and all the symptoms of an aggravated case of Bright's Disease. Four of our best physicians attended her, but without success, and

Her Life was Despaired of.

But a man's love and prayers surmounted all difficulties, and I determined to try Dr. David Kennedy's Favorite Remedy. I bought a bottle of it, and gave it to my daughter. It was a last resort, and I hoped, although my little daughter's case was a very severe one, that the Favorite Remedy would do for her what it had done for others whose condition had been so bad, and who were so near the end of their journey. I determined to try it, and I did so. I gave her a bottle of it, and in a few days she was able to get up and walk, and in a few more days she was well, and her strength was restored. This is a true story, and it is a proof of the power of Dr. King's New Discovery. It is a cure for all kinds of consumption, and it is a cure for all kinds of weakness. It is a cure for all kinds of disease, and it is a cure for all kinds of suffering. It is a cure for all kinds of trouble, and it is a cure for all kinds of distress. It is a cure for all kinds of pain, and it is a cure for all kinds of sorrow. It is a cure for all kinds of grief, and it is a cure for all kinds of despair. It is a cure for all kinds of hopelessness, and it is a cure for all kinds of despair.

A MARVELOUS RECOVERY

and is due entirely to the Favorite Remedy, which was the only medicine taken after her case was abandoned by the physicians.

NOTES ABOUT ICE AND "ICE MEN."
What is Being Done "Long Shore and Up the Rondout."

At Malden men are stacking ice on Clare's dock.

The ice is nine inches thick in the lower Rondout Creek, at Eddyville.

The Brewers' Ice Company employees, at Eddyville, are paid with silver and bank notes.

North & Schoonmaker, of Rondout, are loading a number of boats with ice, which is being taken from the "Flats," near the mouth of the Rondout Creek.

The ice large barge, partially laden with ice, was towed to the Railroad Dock, Ponckhewagon, this morning, where it will receive the remainder of its cargo.

The work of filling Clinton Hillbrand's ice house, at South Rondout, the one leased by the Brewers' Ice Company, was accomplished, to-day. The ice at that point is nine and 10 inches in thickness. Work will be continued until several large barges of the Company have been filled.

At Slate Dock, Rhinecliff, yesterday, Superintendent McGee, with a large force of men, boys and horses, began the work of filling the Knickerbocker Company's house there. About 400 men applied for work.

The ice being harvested at that point averages about eight inches in thickness.

AT PLATYBUSH.
The old Livingston house is full of ice gathered this season.

The Mutual Benefit house is half full of seven and eight-inch ice.

The New Jersey Company will not cut ice until it is 10 inches thick.

The Newark Ice Company's house is being filled with eight-inch ice.

A horse owned by the Knickerbocker Company was drowned near the VanEtten Ice house, recently.

The West Shore Railroad Company has built a switch at Brink's Crossing, for the shipment of ice.

Ernest Seaman was thrown from the back of a runaway horse, on the ice, on Saturday, and struck on his head, cutting a gash nearly two inches in length.

The Knickerbocker Ice Company's house, at Turkey Point, near here, containing six large rooms, has 30 feet of ice in height, in each room. The house is considered full.

THE RECORD OF CITY AMUSEMENTS.
The Deshon Opera Company To-Night—The Atkinson "Checkered Life" Company, which was looked to appear in Rondout last night, did not come here.

There was standing room only, last night, at the Kingston Opera House, when the curtain was raised for the Deshon Opera Company to give the first entertainment of a week's engagement. The opera presented was "La Mascotte." Despite the fact that several of the members are afflicted with colds, the chorus was the finest and strongest that has been heard in Kingston Opera House in a long time. Heretofore good chorus singing has been the exception, instead of the rule, and lovers of opera were agreeably surprised, last night, to find this order of things reversed. Frank Deshon, as Prince Lorenzo, was capital. He was well supported. Miss M. Dyrnes, as Bettina, made a decided hit. To-night the opera of "Robert Macaire," a new version of "Emilie," will be given. The company is a large and strong one.

PROMENADE CONCERT.
The promenade concert and reception which will be given at the Academy of Music, this City, to-morrow night, by the members of Cornell Hose Company gives promise of being one of the most enjoyable events ever given under the auspices of that popular organization. The various committees having the affair in charge have left nothing undone for the comfort and pleasure of their guests. The first part of the evening's entertainment will consist of a musical program, which will be rendered by an orchestra of 20 pieces, under the leadership of Jerome Williams.

An Act of Kindness.
Yesterday afternoon a horse whose gaunt appearance attracted the attention of passers-by, stood on Wurts-street, Rondout, shivering with the cold. It was attached to a shabby wagon. The driver of the rig was not in sight, and a number of school girls, whose compassion was aroused by the suffering of the poor animal, went to the vehicle and taking from it two old bags they threw them over the back of the neglected beast. The horse seemed to appreciate this act of kindness, and no doubt could it have talked it would have thanked its pretty benefactors.

Appointed Teller.
Frank B. Horstcock, of Ellenville, has been appointed teller at a new bank at Florio on Albany.

EVANGELICAL ALLIANCE.

MEETINGS HELD IN RONDOUT AND IN KINGSTON LAST NIGHT.

Next Public Gathering Announced—The Classis of Ulster—In Reference to Church Social Work—In the Postal Here and Elsewhere.

A meeting of the Supervisors of the Rondout Department of the Evangelical Alliance was held in the chapel of the Presbyterian Church last evening. President A. K. Fuller presided and E. G. Adams acted as Secretary. Prayer was offered by the Rev. Thomas Lamont. Various Supervisors reported the need of visitors, etc., in their districts. A general view of methods and explanation of plans was given by President Fuller and also by several of the Supervisors. The next public meeting, it was announced, will be held in April. Another meeting for the purpose of receiving more thorough instruction in the work will be held in the Wurts-street M. E. Church, on Monday evening, March 11.

KINGSTON DEPARTMENT.
There was a meeting of Supervisors of the Evangelical Alliance, in St. James M. E. Church, Kingston, last night. The Rev. Dr. J. G. VanWert presided. William Smith acted as Secretary. After the object of the meeting had been stated, the Chairman suggested that a courteous resolution be drawn, recommending that a division be made between the upper and lower ends of the City, somewhere in the vicinity of the City Hall. The Rev. O. Haviland said that while the meeting had no authority to decide the question, he would move a resolution that the meeting recommend that Districts No. 1 to 17, inclusive, be under the supervision of the Rondout wing of the Alliance. It was adopted.

Pastors present asked how many of their visitors were working. The Secretary read the reports. After consultation some of the work was referred to give greater efficiency. Districts which had been incompletely canvassed were rearranged and assigned to new Supervisors and additional visitors provided.

A letter from the Rev. A. K. Fuller was read, suggesting that there be no monthly meeting in March, as the time was too short to make proper arrangements and have general visitation, and that arrangements be made for an April meeting. Mr. Fuller wrote: "Try to make it as interesting and profitable as possible." Letters were received and a committee consisting of the Chair and F. J. Cheney was appointed to make arrangements for the meeting on a Monday evening, a church to be engaged in Kingston, and addresses to be made by two persons.

CLASSIS OF ULSTER.
At the session of the Classis of Ulster, in Kingston, yesterday afternoon, resolutions were adopted favoring the organization of a mission society in the several churches, "classical mission societies," whose object shall be to hold meetings for the purpose of stimulating each church and Sunday School to active missionary work. The missionary agents of Classis—the Rev. A. J. Sebring, the Rev. W. A. Shaw, the Rev. Dennis Wortman, D. D.—were appointed a committee to carry the resolutions into effect. Miss DeWitt, of Saugerties, agent of the Woman's Executive Committee of Classis, and Mrs. Dr. Wortman and Mrs. A. J. Sebring will be invited to act with them in organizing such meetings among the ladies of the several congregations.

FOR A CHURCH FUND.
On Monday evening, March 18, Miss Settle Blume, of New York, an eloquent well known and favored visitor, Miss Sadie Crosby, of Rondout, violinist, will give an entertainment at Liscomb's Opera House, Rondout, under the auspices of the Congregation Emanuel. The proceeds of the entertainment will be used toward building a new synagogue for the use of that congregation. The sale of tickets has been so large that a full house is already assured.

CHURCH SOCIAL WORK.
A "fish supper" will be served by the ladies of the Port-Ewen M. E. Church, on Wednesday evening.

The ladies of the Church of the Holy Spirit, Rondout, will give a social in Washington Hall, Thursday evening.

The members of St. Stephen's Harmony Club will give a concert in the Saugerties Reformed chapel to-morrow evening.

The concert and social to be given under the auspices of the Port-Ewen Reformed Church congregation, will be held on March 6.

The members of the Ladies' Guild of St. John's Church, Kingston, will give a "Parish Tea" this evening and to-morrow evening at the Sydnay House, corner of Main and Wall-streets.

A meeting of the members of the Local Branch of the State Charities Aid Association will be held in this City on Friday.

VARIOUS SPORTING MATTERS NOTED.
Accident to Ice Boats—Trotting Track on the Ice—Pickering.

The mast of Jacob Kuyak's ice boat at Eddyville was carried away by the wind one day last week.

A trotting track has been laid out on the ice at West Camp and fast "nags" are being speeded upon it.

Recently Richard Thorpe, of Sleightburgh, went fishing in Sullivan County. Thorpe says that he caught 34 pounds of pickerel. The fish were large. He reports the weather in that section as being extremely cold.

A dispatch to THE FREEMAN from Troy to-day stated: The second annual bench show of the Rensselaer Kennel Club opened to-day. There are 411 entries, including noted dogs that took prizes at the New York bench show last week. It is expected it will be the finest show ever held in the State, outside of New York City.

On Saturday William G. Johnston and Robert Johnston, members of the Rondout Ice Yacht Club, with their boats "Whizz" and "Dick," attempted to sail a number of races on the Hudson River. The wind blew a gale. A sudden squall struck the yachts, breaking the mast of the "Whizz" and the boats and bow-sprits. The Johnstons say that neither the "Whizz" nor the "Dick" will be sailed again this winter.

Obituary Poetry.
[From the Freeman.]
We are in receipt of a few verses of poetry written and composed on the demise of little Sidney Rogers. We can not publish it for the simple reason that we believe it to be an unjust criticism on the future home for editors. It states in the first stanza that the boy has left "this world so pure and fair." Any writer of obituary poetry, who will refer to this revolving mirror sphere, the abode of White Caps and Red Indians, as "pure and fair" ought to be stuffed into the waste basket beside the poetry. The country, where beings like who chuck newspapers back into the Post-Office marked "refused" with a big "R" when they over the editor for the same, called "pure and fair." The idea is sacrilegious and should be squelched before recorded.

A Mean Practice.
[From the Montgomery Standard.]
For a long time the hunters of this village have been annoyed by farmers who shoot foxes from in front of the hounds, and make way with them. It is a mean trick, and those who are accustomed to practice it will do well to remember that the law will deal harshly with anyone convicted of the offense. A summons has been issued, returnable before Justice, against J. P. Seely, a hunter, for shooting a fox in front of the hounds, and the hunters will be successful in their attempt to stop the annoyance.
